

THV Tube Connectors

FOR QUICK AND EASY LEAK AND BURST TESTING OF RIFLED/GROOVED REFRIGERATION COILS — UP TO FOUR CIRCUITS AT ONCE

Pressures to 650 PSI (44 Bar)
75 Microns Vacuum

TMV Tube Connectors for testing 2 or more circuits simultaneously

A proven design now adapted to seal on the I.D. of Rifled/Grooved Tubing

- For 3/8" and 5/16" tube or coil assembly testing.
- Up to 625 psi.
- 75 microns vacuum.
- Vented stem for prolonged seal life.
- Stainless steel retaining ring for added safety.
- Hardened stainless steel components designed for extended wear.
- Compatible with most refrigerants.
- Custom made for specific coil I.D.'s.
- Unit comes pre-set — no adjustments needed.
